Having developed into a full-fledged Hawaii booster, Captain William Howe, U. S. Inspector of Hulls for Hawaii, who is on a vacation in San Francisco, writes that he meets many Honolulu people there, and always puts in a good word for the islands.

Governor Frear yesterday expressed himself as favorable to the idea of bringing Russian laborers to the islands, advising a small settlement at first to "test" them, under which circumstances it would be easier to settle the problem in case they were not satisfactory.

A cablegram to Governor Frear from Augustus Knudsen at the Exposition yesterday, couched in positive language, requested the Governor's presence at Seattle on August 24, but the Chief Executive could not accept for reasons connected with the pressing business of his office.

The High Sheriff has attached the property of William H. Cornwell on Maui. Cornwell is at present living in California and the attachment followed a judgment against him in the Circuit Court in favor of Arthur M. Brown to the sum of \$1541.65. A promissory note was the basis for the claim.

According to a letter received yesterday from the father of Raymond M. Baker, bigamist, by U. S. District Attorney Breckons, the young man will not receive the financial assistance from Baker, Sr., he expected. Although the tone of the letter shows that he has the best wishes of his father, he will get little else.

An effort is now being made to induce Governor Frear to make an exchange with the Bishop Estate where by Atkinson Park in Kakaako, and the land lying immediately makai down to Ala Moana road, will come into the possession of the county. If the deal goes through, the whole will be thrown together into one large park.

Hawaii owes her place in the National Irrigation Congress at Spokane largely to the efforts of F. H. Newell, head of the reclamation service of the Government. Mr. Newell wrote a letter on behalf of the Hawaiian delegation to the chairman of the Congress' Executive Committee, asking that a place on the program be reserved for the islands as Marston Campbell has requested.

The body of the late W. G. Walker arrived this morning on the Mauna Kea. It was met by E. H. Paris, George W. ## COMMERCIAL TREATY MAKES JAPAN RESTIVE

WASHINGTON, July 23.—Japan is becoming restive under the trade conditions imposed by her treaty with the United States, the recently proposed negotiations for a new treaty notwithstanding. The present treaty does not expire for two years.

Ambassador O'Brien is quoted as follows on the new treaty with Japan by the San Francisco Call:

"So far as I know, the Japanese Government has not given out any such intimation, (not desiring to renew the treaty that expires in 1911). The fact is that the Government has not given the treaty a thought, so far as immigration and exclusion features are concerned. That Government does not desire its people to emigrate, and accords the right of the United States to regulate its immigration matters as Japan claims the same right to regulate its own immigration matters."

**AMERICAN BANKERS WANT CHINA'S LOAN.**

Compromise Suggested By German And French Financiers Is Rejected.

London, July 10. — Representatives of American bankers now in London, will leave for Paris early next week to make another effort to reach an agreement with the European financiers for American participation in the Hankow Sze Chuen railroad loan of \$27,000,000.

The greatest reticence is maintained with respect to the meetings held in London this week. It is understood, however, that the German and French bankers came here under the delusion that the Americans were prepared to accept a compromise. They found, however, that the Americans insisted on the acceptance of the state department's terms and the breaking off of negotiations was only prevented at the suggestion, made by the continental representatives, that they be given time to consult with their respective governments, after which further meetings would be held in Paris and Berlin if necessary.

It is certain that the Americans will not recede from their stand taken at the London meeting and if necessary will insist that China shall not sign the loan agreement until the American claim is recognized.

**GREAT AMERICAN NOVEL SHOULD APPEAR THIS YEAR.**

Psychological Moment in Literature Is Now at Hand.

Chicago, July 10.—The great American novel is due. Prof. James W. Linn, himself an author, said yesterday, speaking at the University of Chicago, on "Have All the Good Novels Been Written?"

"This is the psychological year," he said, "exactly one century from the appearance of that flood of great novels from Scott, Eliot and others. The great American novel will come from some obscure author. It will be either romantic or on some great moral problem."
